Subject index

Articles in update issues are indicated by page numbers in italics; those in the supplement have page numbers preceded by S1

Abscess, spontaneous bacterial, bilateral cavernosal bodies (case report) 1107
Adenoma
  synchronous nephrogenic in bladder and neourethra (bladder mucosa) in boy (case report) 169
  villous, urinary bladder (case report) 177
Adenosine triphosphate (ATP) as sensory neurotransmitter in bladder 854
α_1-adrenoceptor agonists, urethral contractile responses to 515
Adrenaline, detrusor muscle stimulation, effect on response of resting tension (abstract) 144
Ageing, nocturia S1.13
Alfuzosin, sustained-release, effect on outcome of trial without catheter after acute urinary retention 622
Ammonium, measurement of ionized MgS^{2+} and NH_4^+: implications for stone formation (abstract) 156
Amplatz sheath in female urethra, cystolitholapaxy (correspondence) 187
Anaesthesia
  effect of anaesthetic technique on outcome after transurethral resection of prostate 982
  local: effect of temperature of lignocaine gel on discomfort of instillation in male urethra 1035
Aneurysm, radiation-induced vesical arterial (case report) 743
Angiogenic peptides/growth factors in prostate disease 133 (abstract) 1081
Angiomyolipoma, renal, management (correspondence) 543, 544, 1116
Appendix used for Mitrofanoff channel, carcinoid in (case report) 1110
L-Arginine, effects of long-term oral administration on erectile response in alloxan-induced diabetic rabbits (correspondence) 748, 749
Aspirin, hazards of withdrawal before transurethral prostatectomy (case report) 530
Audit
  results of modified template retroperitoneal lymph node dissection for testicular teratoma 667
  retrospective, combined transurethral prostatectomy and inguinal hernia repair 637

Bacille Calmette-Guérin (BCG), possible role of fibronectin in failing therapy after transurethral resection of bladder tumour 428
Bcl-2 expression not a prognostic marker in bladder cancer (abstract) 139
Behçet's disease and spontaneous haematocele (case report) 737
Benign prostatic hyperplasia (BPH)
  acute urinary retention, effect of sustained-release alfuzosin on outcome of trial without catheter 622
  angiogenic peptides/growth factors in 133 (abstract) 1081
  appropriateness of referral to urologists (correspondence) 187
  assessment of risk of unsuspected prostate cancer in patients 1015
  asymptomatic inflammation and/or infection 976
  comparison of protein expression in epithelial and mesenchymal cells *in vitro* and *in vivo* (abstract) 135
  epidemiology: a study in Greece 286
  laser treatment
    holmium:YAG 1
    hybrid treatment compared with transurethral resection for symptomatic bladder outlet obstruction 805
    measurement of prostatic transition zone 661
    obstruction from, effects of interstitial laser coagulation on lower urinary tract symptoms 628, 1120 (erratum)
    $p75^{LNGFR}$ and Trk neurotrophin receptors 495
  prostatectomy for
    mortality and prostate cancer risk 37
    repeat: application of record linkage 972
  see also Transurethral resection of prostate
    thermotherapy, comparison with sham study 292
    transforming growth factor β1, effects on extracellular matrix production (abstract) 134
    transforming growth factor β1 and fibroblast growth factor 2, actions in stromal cell populations isolated from BPH tissue (abstract) 134
Benign prostatic obstruction
  effects of interstitial laser coagulation on lower urinary tract symptoms 628, 1120 (erratum)
  transurethral resection or incision of prostate and other therapies: survey of treatments in UK 640
Biopsy, prostate, patients' tolerance of transrectal ultrasound-guided biopsy (correspondence) 890
Bladder
  augmentation
    prosthetic infection of simultaneously placed artificial genitourinary sphincters or *in situ* ventriculoperitoneal shunts 25
    use of seromuscular enterocystoplasty in children 103
    augmentation and replacement, Congo-red mapping and marking to delineate antral-corpus boundary (point of technique) 725
    augmented, clean intermittent self-catheterization: complication (case report) 539
    brain activity associated with urge to void and bladder fill volume in normal men (abstract) 148
    changes in nerve, muscle and connected tissue in normal and unstable bladder 953
    contractility, in voiding 14
    exstrophy, latex allergy in patients: relationship with clinical intervention and atopic diseases 1058
    function after multiple pregnancies, pharmacological and urodynamic changes 861
    granular cell tumour in von Recklinghausen's disease (case report) 871
    ischaemic insult, modification of whole-organ method to allow investigation of effects on function and structure in guinea pig (abstract) 147
    lamina propria nerves, ultrastructural comparison (abstract) 145
    migration of retained surgical gauze and spontaneous transurethral protrusion (case report) 879
  neurogenic
    associated with spinal cord injury, impact of bladder management techniques 280
    intraurethral sphincter prosthesis in women 789
    neuropathic, Pippi Salle urethral lengthening procedure 701
  outlet obstruction
    hybrid laser treatment compared with TURP for obstruction caused by large benign prostate 805
    index 14
    time-dependent changes in endothelin receptors and nitric oxide synthase binding sites in renal medulla of rabbit 1073
    up-regulation of endothelin-B (ET_B)

© 1999 BJU International

and ET_B receptor-mediated detrusor contraction 714
purinergic sensory neurotransmission 854
radiation-induced vesical arterial aneurysm cured by selective embolization (case report) 743
stones *see* Stones, bladder
synchronous nephrogenic adenoma in bladder and neourethra (bladder mucosa) in boy (case report) 169
unstable
changes in nerve, muscle and connected tissue 953
control by graded thermoelectric cooling of spinal cord 1084
urothelial function (review) 235
villous adenoma (case report) 177
voiding function, indices of (discussion paper) 14
Bladder cancer/carcinoma
Bcl-2 expression is not a prognostic marker (abstract) 139
development as consequence of portal-systemic shunting (abstract) 136
effect of mitomycin C and photodynamic therapy on cell cycle kinetics of J82 and J82MMC bladder cell lines (abstract) 143
immune response to, role of interleukin 18 (abstract) 137
immunoscintigraphy, technetium labelling of monoclonal antibody C595: pre-clinical evaluation (abstract) 142
intravesical chemotherapy, test-bed for new agents using fluorescence-labelled human urothelial cancer cells grown on rat bladder organ cultures (abstract) 137
invasion model using rat bladder *in vitro* (abstract) 138
matrix metalloproteinase-1 and epidermal growth factor in: immunohistochemical expression and relationship to urinary matrix MMP-1 concentration (abstract) 141
MUC1 mucin as tumour marker 350
muscle-invasive
association with decreased urinary matrix metalloproteinase-1 to tissue inhibitor of metalloproteinase-1 ratio (abstract) 141
radical radiotherapy: prognostic value of combined WAF1 and TP53 (abstract) 140
natural history of T1 cancer (case report) 1102
prognostic value of peripheral blood lymphocyte subsets in carcinoma treated with neoadjuvant chemotherapy 1069
radical radiotherapy (correspondence) 1117
regulation of vascular endothelial growth factor expression in cell lines: potential mechanisms and therapeutic targets (abstract) 142
role of obesity and diet 225
transitional cell
along with malignant melanoma of male bulbar urethra 877
analysis of factors in progression of pT1G3 TCC (abstract) 138
CD-40 immunocytochemistry in diagnosis (abstract) 139
chromosomal aberrations predictive of recurrence 775
elevated fibronectin levels after transurethral resection: possible role after failed BCG therapy 428
genetics: progress and potential clinical application (review) 412
increased matrix metalloproteinase activity predicting significantly increased risk of death (abstract) 143
nuclear matrix protein 22 as tumour marker 706
in patient on clean intermittent catheterization (case report) 378
Body piercing as cause of priapism (case report) 377
Bone anchors, treatment of female genuine stress incontinence 780
Bone metastases, prostatic cancer, paradoxical expression of E-cadherin 1032

Retroperitoneal lymph node dissection, modified template, testicular teratoma 667
Reverse transcription-polymerase chain reaction (RT-PCR), preoperative prostate specific membrane antigen measuurement as predictor of biochemical recurrence after radical prostatectomy 112

Sacral neuromodulation, leg pain after (abstract) 150
anatomical considerations (case report) 1113
Scrotal elephantiasis, management (point of technique) 362
Semen, cryopreservation after orchidectomy in testicular cancer patients 1038
Seminal vesicles
involvement in febrile urinary tract infection 470
sperm aspiration in diagnosis of ejaculatory duct obstruction 1050
Seminal vesiculography, transrectal-ultrasonography guided echo-enhanced (point of technique) 521
Seminoma: paternity in patient with seminoma and carcinoma *in situ* in solitary testis treated by partial orchidectomy (case report) 374
Seromuscular enterocystoplasty, bladder augmentation in children 103
Sertoli tumour presenting with stress incontinence in testicular feminization (case report) 382
Sexual function
effects of testicular cancer treatment 671
patients with testicular prostheses 1043
Skin grafts, histology and immunohistochemistry after exposure to urine 108
Sleep deprivation, nocturia and S1.27
Smooth muscle
corpus cavernosum
dose-dependent impairment of relaxation by glysolated haemoglobin *in vitro* (abstract) 153
effect of nitric oxide and peroxynitrite on muscle relaxation (abstract) 152
interaction of cGMP and cyclo-oxygenase cascade in rabbit (abstract) 151
detrusor, gap junction resistance (abstract) 158
epididymal, physiology (abstract) 152
Sodium ions, effects of Na^+ on detrusor contractility and investigation of Na^+/Ca^{2+} exchanger (abstract) 158
Sperm mixed agglutination reaction test, comparison with peroxidase-labelled protein A test for detecting antisperm antibodies in infertile men with varicocele 835
Sphincters
detrusor, dyscoordination 1054
intraurethral sphincter prosthesis in treatment of hyporeflexic bladders in women 789
urethral striated, neuronal nitric oxide synthase and (abstract) 145
see also Urinary sphincters, artificial
Spinal cord injury
chronic, detrusor muscle in: comparative histological survey (abstract) 146
control of unstable bladder by graded thermoelectric cooling of spinal cord 1084
intraurethral sphincter prosthesis in treatment of hyporeflexic bladders in women 789
struvite calculi, impact of bladder management techniques 280
visual hallucinations at onset of tolterodine treatment in high-level injury (case report) 1109

Splenogonadal fusion, macro-orchidism as indicator (case report) 733
Staples: comparison of absorbable and nonabsorbable staples in constructing antireflux valves of urethral hemi-Kock pouches 440
Steinstrasse, effect of J stenting on incidence and management 618
Stents
extra-anatomic, ureteric obstruction 762
J, effects on incidence and management of steinstrasse 618
JJ
obstructing ureteric stones, comparison with nephrostomy and extracorporeal shock wave lithotripsy 264
temporizing procedure for partial congenital vesico-ureteric junction obstruction in infancy (point of technique) 524
ureteric: symptoms and development of tolerance to indwelling double-pigtail stents 276
Stomach, bladder augmentation and replacement, use of Congo-red mapping and marking to delineate antral-corpus boundary (point of technique) 725
Stones
bladder
in cystocoele causing irreducible genital prolapse (case report) 171
management with combined optical mechanical cystolithotripsy and transurethral prostatectomy 32
formation
lithogenic risk factors in normal black volunteers and black and white recurrent stone formers 243
measurement of ionized Mg^{2+} and NH_4^+ (abstract) 156
nonmedical prophylaxis 393
kidney
in coeliac disease (case report) 526
extracorporeal shock wave lithotripsy in early pregnancy 615
flexible ureterorenoscopy for treatment of refractory stones 257
formation, effects of human urine on adhesion of calcium oxalate crystals to Madin–Darby canine kidney cells 118
incidental renal cell carcinoma and (case report) 1104
nonmedical prophylaxis after first stone 393
percutaneous nephrolithotripsy in treatment of calculus nephropathy and advanced uraemia 252
struvite, associated with spinal cord injury: impact of bladder management techniques 280
upper urinary tract, flexible ureterorenoscopy for treatment of refractory stones 257
ureteric
diagnosis 911
laparoscopic ureterolithotomy 765
obstructing, comparative analysis of nephrostomy, JJ stent and *in situ* extracorporeal shock wave lithotripsy 264
primary *in situ* extracorporeal shock wave lithotripsy 770
therapy 916
urethral hemi-Kock pouches, comparison of absorbable and nonabsorbable staples in constructing antireflux valves 440
urinary tract, minimally invasive treatment in children 339
Suburethral slings, allograft, failure 785
Suicide-gene therapy, prostate cancer, systemic effects of HSVtk/gancyclovir system (abstract) 128
Suture tracks after hypospadias repair 843
Sympatholytic agents, therapeutic potential in premature ejaculation 503

Tenesemus (case report) 741
Teratoma, testicular, audit of results of modified template retroperitoneal lymph node dissection 667
Testes
cancer
effects of treatment on sexual function 671
paternity in patient with seminoma and carcinoma *in situ* in solitary testis treated by partial orchidectomy (case report) 374
semen cryopreservation after orchidectomy 1038
fine-needle aspiration, diagnostic evaluation of infertility 485
growth during fetal period 689
histology, cloacal exstrophy: implications for gender assignment 99
macro-orchidism as indicator of continuous splenogonadal fusion (case report) 733
prostheses
body image and sexual functioning 1043
placement (point of technique) 867
subumbilical ectopic (case report) 887
traumatic avulsion (case report) 1097
tumours, germ cell *see* Germ cell tumours, testis
undescended, maternal stress and 353
Testicular feminization, Sertoli tumour presenting with stress incontinence (case report) 382
Testosterone, serum levels
effect of microsurgical varicocelectomy in infertile men with varicocele 1046
as indicator of sexual potency in erectile dysfunction patients 482
Thermotherapy
benign prostatic hyperplasia, comparison with sham study 292
microwave *see* Microwave thermotherapy
Tolerodine treatment in high-level spinal cord injury, visual hallucinations (case report) 1109
TP53 combined with WAF1, prognostic value in muscle-invasive bladder cancer treated with radical radiotherapy (abstract) 140
Transforming growth factor β1 (TGFβ1)
actions in stromal cell populations isolated from benign prostatic hyperplasia tissue (abstract) 134
effects on extracellular matrix production in prostate (abstract) 134
Transforming growth factor β2 (TGFβ2), prostate disease (abstract) 133
Transurethral resection of prostate (TURP)
anaesthesia technique, effect on outcome 982
benign prostatic hyperplasia, mortality and prostate cancer risk 37
benign prostatic obstruction 640
combined with inguinal hernia repair: retrospective audit and literature review 637
combined with optical mechanical cystolithotripsy in management of vesical calculi 32
comparison with hybrid laser treatment (correspondence) 750
symptomatic bladder outlet obstruction caused by large benign prostate 805
fluid absorption/three techniques for draining irrigation fluid (correspondence) 891, 1116, 1117
follow-up
patients with unfavourable early results 799
routine 795
hazards of aspirin withdrawal (case report) 530
risk of repeat prostatectomy after surgery for benign prostate disease: application of record linkage 972
Tumour markers
angiogenesis factors, prostate disease 1081
bladder cancer
Bcl-2 (abstract) 139
MUC1 350
NMP22 706
Tunica vaginalis
benign cystic mesothelioma (case report) 533
malignant mesothelioma, serum hyaluronic acid level as marker (case report) 729
TURP *see* Transurethral resection of prostate

Ultrasound
colour Doppler, diagnosis of posterior

urethral polyp in boy (case report) 881
transrectal
assessment of prostatic involvement in febrile urinary tract infection 470
guidance of echo-enhanced seminal vesiculography (point of technique) 521
measurement of prostatic transition zone 661
prostatic biopsy, patients' tolerance (correspondence) 890
transurethral, evaluation of Macroplastique therapy in stress incontinence (abstract) 154
Ureter
anastomosis, refluxing/nonrefluxing *905*
duplication, blind-ending, with ectopic and refluxing ureterocele (case report) 173
obstruction
after lumbar diskectomy (case report) 371
extra-anatomic stents: experience and complications 762
renal tubular changes in a cellular model (abstract) 155
retrocaval, retroperitoneal laparoscopy (case report) 181
rupture, complication of microdiskectomy (case report) 369
stents, symptoms and development of tolerance to indwelling double-pigtail stents 276
strictures after pelvic radiotherapy, gastroureteroplasty (case report) 883
Ureterocalycostomy in management of pelvi-ureteric junction obstruction in horseshoe kidney (point of technique) 366
Ureterolithotomy, laparoscopic 765
Ureterorenoscopy, flexible, treatment of refractory upper urinary tract stones 257
Urethra
Amplatz sheath placement in female: use in cystolitholapaxy (correspondence) 187, 188
blood perfusion, effects of artificial urinary sphincters (abstract) 154
bulbar, malignant melanoma, along with transitional cell carcinoma of bladder (case report) 877
contractile responses to α_1-adrenoceptor agonists 515
duplication, presenting as acute abdomen (case report) 175
incompetent, management in chronically debilitated female (point of technique) 727
injury, surgical management in neurologically impaired females with chronic indwelling catheters (correspondence) 386
lengthening, Pippi Salle procedure 701
lignocaine gel instillation in male, effect of temperature on discomfort 1035
posterior urethral polyp in boy (case report) 881
reconstruction, histology and immunohistochemistry of free buccal mucosa and full-skin grafts after exposure to urine 108
traumatic diverticula (case report) 885
warts, as cause of acute retention of urine (case report) 1100
Urethral sphincter, striated neuronal nitric acid synthase and (abstract) 145
Urethral valves *570*
Urethroplasty
preputial island flap-tube, hypospadias repair 89
tubularized-incised plate, hypospadias (correspondence) 891, 892
importance of regular dilatation 683
Urgency/urge incontinence
comparison of tolerability and efficacy of propiverine and oxybutynin 646
conditional neuromodulation (abstract) 150
Urinary diaries S1.7
Urinary diversion
childhood, indications for different techniques *897*
effects of colorectal valve on oro-anal transit time in patients with augmented and valved rectum 444
ileal conduit, reflux in 433
Mitrofanoff, complex vesicovaginal fistulae: experience from Uganda 436
reflux/antirefluxing anastomosis *905*
urethral hemi-Kock pouches, comparison of absorbable and nonabsorbable staples in constructing antireflux valves 440
Urinary sphincters, artificial
effects on urethral blood perfusion measured with laser Doppler flowmetry (abstract) 154
prosthetic infections in patients undergoing simultaneous bladder augmentation 25
Urinary tract, lower *see* Lower urinary tract
Urinary tract infection
febrile, prostatic involvement measured by serum PSA and transrectal ultrasonography 470
recurrent, Wegener's granulomatosis (case report) 531
Urine
analysis, new automated system 454
effects of human urine on adhesion of calcium oxalate crystals to Madin–Darby canine kidney cells 118
measurement of ionized Mg^{2+} and NH_4^+: implications for stone formation (abstract) 156
retention
acute, effect of sustained-release alfuzosin on outcome of trial without catheter 622
complication of Plastibell device 745
pan-urethral warts and (case report) 1100
Urodynamic studies
assessment of lower urinary tract symptoms, tolerability 449
fetal lamb, experimental protocol and preliminary results (abstract) 149
minimal urodynamic evaluation in children with chronic voiding dysfunction 1054
Urodynamics
bladder outlet obstruction index, bladder contractility index and bladder voiding efficiency as indices of bladder voiding function (discussion paper) 14
changes in bladder function after multiple pregnancies 861
incidence of detrusor instability before and after colposuspension: study using conventional and ambulatory monitoring 961
noninvasive diagnosis of infravesical obstruction *195*
prostatodynia evaluation 461
Urolithiasis
lithogenic risk factors in normal black volunteers and black and white recurrent stone formers 243
nonmedical prophylaxis 393
Urothelial function (review) 235
Urothelium, long-term porcine cell cultures and induction of stratification 507

Varicocele, infertile men
comparison of sperm mixed agglutination reaction test with peroxidase-labelled protein A test for detecting antisperm antibodies 835
effect of microsurgical varicocelectomy on serum follicle stimulating hormone, testosterone and free testosterone levels 1046
Vas deferens, sympathetic system-related contractile activity after ligation and intra-abdominal placement of testis 357
Vascular endothelial growth factor (VEGF)
prostate disease 133 (abstract) 1081
regulation in bladder cancer cell lines: potential mechanisms and therapeutic targets (abstract) 142
Vasectomy, history (review) 475
Vena caval reconstruction with ovarian vein following surgery for renal cell carcinoma thrombus (case report) 873
Ventriculoperitoneal shunt, prosthetic infections following bladder augmentation 25
Vesico-ureteric junction obstruction (VUJO),

partial congenital, JJ stent as temporizing procedure (point of technique) 524
Vesico-vaginal fistulae
Mitrofanoff urinary diversion 436
obstetric (review) 10
Voiding
bladder function indices 14
chronic dysfunction, minimal urodynamic evaluation and pelvic floor feedback 1054
pressure-flow plot, evaluation of female incontinence (review) 948
urge, associated brain activity (abstract) 148
von Recklinghausen's disease, recurrent granular cell tumour of bladder (case report) 871
WAF1 combined with TP53, prognostic value in muscle-invasive bladder cancer treated with radical radiotherapy (abstract) 140
Warts, urethral, as cause of acute retention of urine (case report) 1100
Wegener's granulomatosis, prostatic involvement and recurrent urinary tract infections (case report) 531
